Continuation Sheet

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Applicant's representative discussed changing the claims, specifically defining the term regenerated leather material. Applicants wanted to have the term mean scraps of mostly natural leather. The Examiner expressed concern about support for the definition in the specification. However, Applicant's representative did point out support for the use of Salpa a trademark for the regenerated leather material. The Examiner thinks that this would probably be Applicant's best direction to take the application.
